Project CLASS for Schools & Project CLASS for Community

The HAP motto is the HAP commitment: ***Kids Come First!***

Founded in 1974, HAP helps children by providing two sets of program services: ***Project CLASS for Schools*** and ***Project CLASS for Community***. Our primary mission is serving children who are disadvantaged, underserved and from low income families. Our complementary mission is serving ALL children and ALL adults for achievement and success at home, in school and in the community.

Project CLASS (Children Learning Appropriate Social Skills) improves children's behavior and learning readiness. These days, too many children have behavior problems in school, at home and in life. Too many children are not able to Engage Eye Contact, Pay Attention, Follow Instructions, Accept No, Calm Down when Angry, Make Good Choices. Too many children are not able to Learn, Get Along with Others and Succeed. Project CLASS significantly improves children's behavior for school, home and life success.

Project CLASS teaches core-foundation social and learning readiness skills to children 3-5 and 6-12 years old. Core-foundation skills are the ABC basic underpinning skills critical for: Positive Behavior; Learning; Focus of Attention; Academic Achievement; Family Relationships; Getting Along with Others; Combating Bullying & Hate; Mental & Behavioral Health; Success not Failure.

Project CLASS for Schools currently benefits 32,000 children, 4,000 teachers and 2,000 parents annually in 60+ elementary schools and early childhood centers. School partners include Houston ISD, Spring Branch ISD, KIPP Charter, Catholic and Faith-based schools. Music, songs and movements accelerate skills development and retention, contributing to proven benefits and impact.

Project CLASS for Community is an exciting and creative set of complementary services. With the goal of helping tens of thousands, potentially hundreds of thousands more children, parents, teachers, grandparents, foster parents, youth ministers, daycare & after-school staff, HAP has developed the rarest of rarities: a way to serve an astonishing number of children and adults that is remarkably cost effective and economically viable.
